- To promote health wellness amongst the students, staff & community
- To produce thought provoking leaders for the society
- To contribute towards knowledge generation and dissemination
- To foster the spirit of national development
- To develop global competencies amongst students
- To enhance employability and contribute to human resource development
- To instill sensitivity amongst the youth towards community and environment

Symbiosis Institute of International Business, Pune

» Vision «

Developing global citizens through quality education in the area of management.

» Mission «

- To nurture leaders with a global mindset and cross-cultural sensitivity.
- To contribute to nation-building by enhancing employability and encouraging entrepreneurship.
- To provide value and skill-based education while promoting a commitment to sustainability and ethical decision-making.
- To foster knowledge creation and dissemination through industry and academic collaborations.

The year 1992 witnessed India opening up its doors to foreign investments and ushering in the liberalization of the economy. Understanding the significance of this landmark event, the Symbiosis Institute of International Business (SIIB) was set up to prepare leaders for a growing India. With the launch of its flagship Program, MBA in International Business in 1992, the institute continued the trend of keeping itself abreast with the demands of the business world and this led to the introduction of an MBA in Agri-Business in 2004 and MBA in Energy & Environment in 2009 (renamed as MBA - Sustainability Management in 2025). Learning at SIIB is imparted through guest lectures, industry and field visits, live projects, and specialized workshops conducted by industry professionals, in addition to classroom studies.

In addition to gaining knowledge about the complexities of International Business, students pursuing MBA-IB specialize in one more functional domain i.e., Marketing, Finance, Supply Chain Management, and Human Resource Management, depending on their aptitude and career aspirations.

As part of MBA- Agri Business Management, students take up subjects like Agri-Retail Marketing, Rural Marketing, Commodity Trading, Operations Management, Agri Supply Chain Management, Agricultural Economics, and Micro-finance as part of their specialization.

Students of MBA in Sustainability Management pursue courses like corporate sustainability, ESG, Sustainable Energy Development and Management, Renewable Energy Business and Financing, Energy and Power Economics, Energy Analytics, Carbon Markets and Trading, Environmental Management Systems, Life Cycle Assessments, and Sustainable Supply Chains to gain insights into the critical issues in the area of Sustainability Management.

All specializations focus on domestic as well as international management practices. The students of all three programs spend eight weeks in industry as part of their summer internship, this helps in bridging the gap between academic learning and the practical application of theories and concepts. In addition, SIIB has several student exchange programs that aim to provide students with an opportunity to gain a global perspective, under the management lens.

MESSAGE FROM DIRECTOR'S DESK

Prof. (Dr.) Alka Maurya
Director, SIIB

In the rapidly changing economic and business landscape, the need for managers with a global perspective and understanding of International Business has become even more important for modern day organizations.

We at SIIB always take pride in two things, first our international relations with various world-class universities & secondly a strong presence of our illustrious alumni working all across the globe in prestigious organizations.

SIIB provides its students an environment that enables them to have a unique learning experience aiding in the development of strong conceptual and professional skills to conquer the business world.

A photograph of the SIIB building, a modern, multi-story structure with a central courtyard. The building is surrounded by lush greenery, including palm trees and other tropical plants. The text "MBA International Business" is overlaid on the image in a large, white, serif font.

MBA International Business

As a premier Business School in India, SIIB's flagship programme is the Master of Business Administration in International Business. The MBA-International Business is a two-year, residential, post-graduate degree programme, specifically designed for a rewarding career in global business management.

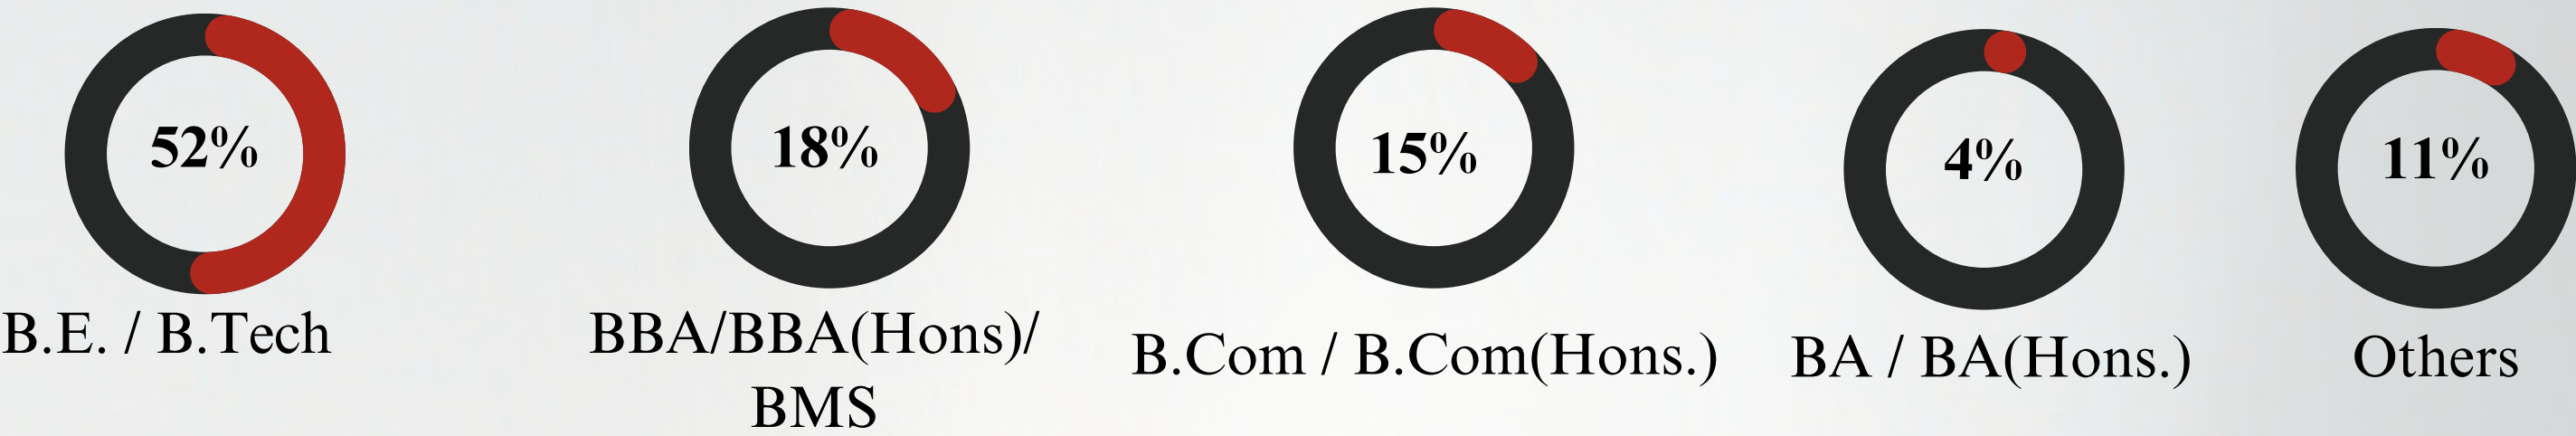

Courses such as Global Business Environment, Export and Import Management, Global Strategic Management, Trade Finance and Forex Risk Management, International Financial Management, International Marketing, Global Supply Chain, Foreign languages, etc., make this programme truly unique and align well with the trends in the International business discipline. Students, who enrol for this programme come from diverse academic backgrounds such as engineering, science, humanities, IT, commerce, etc.

Though International Business is the core of all the courses taught at SIIB, students can opt for one more specialization from Marketing, Finance, Supply Chain Management, and Human Resource Management. The semester pattern followed by SIIB ensures that the subjects are covered in detail and every course taught is understood and assessed thoroughly.

MBA Agri Business

Agriculture and allied sectors contribute significantly to the GDP and employment creation, and continues to be the mainstay of the Indian economy. The agriculture sector has seen an unprecedented growth in the last few years, with many government and private sector initiatives. The changing global norms and increased global competitiveness has created a huge demand for professionals Agribusiness Management, making it one of the most challenging and exciting sectors to be in, either as a professional or an entrepreneur.

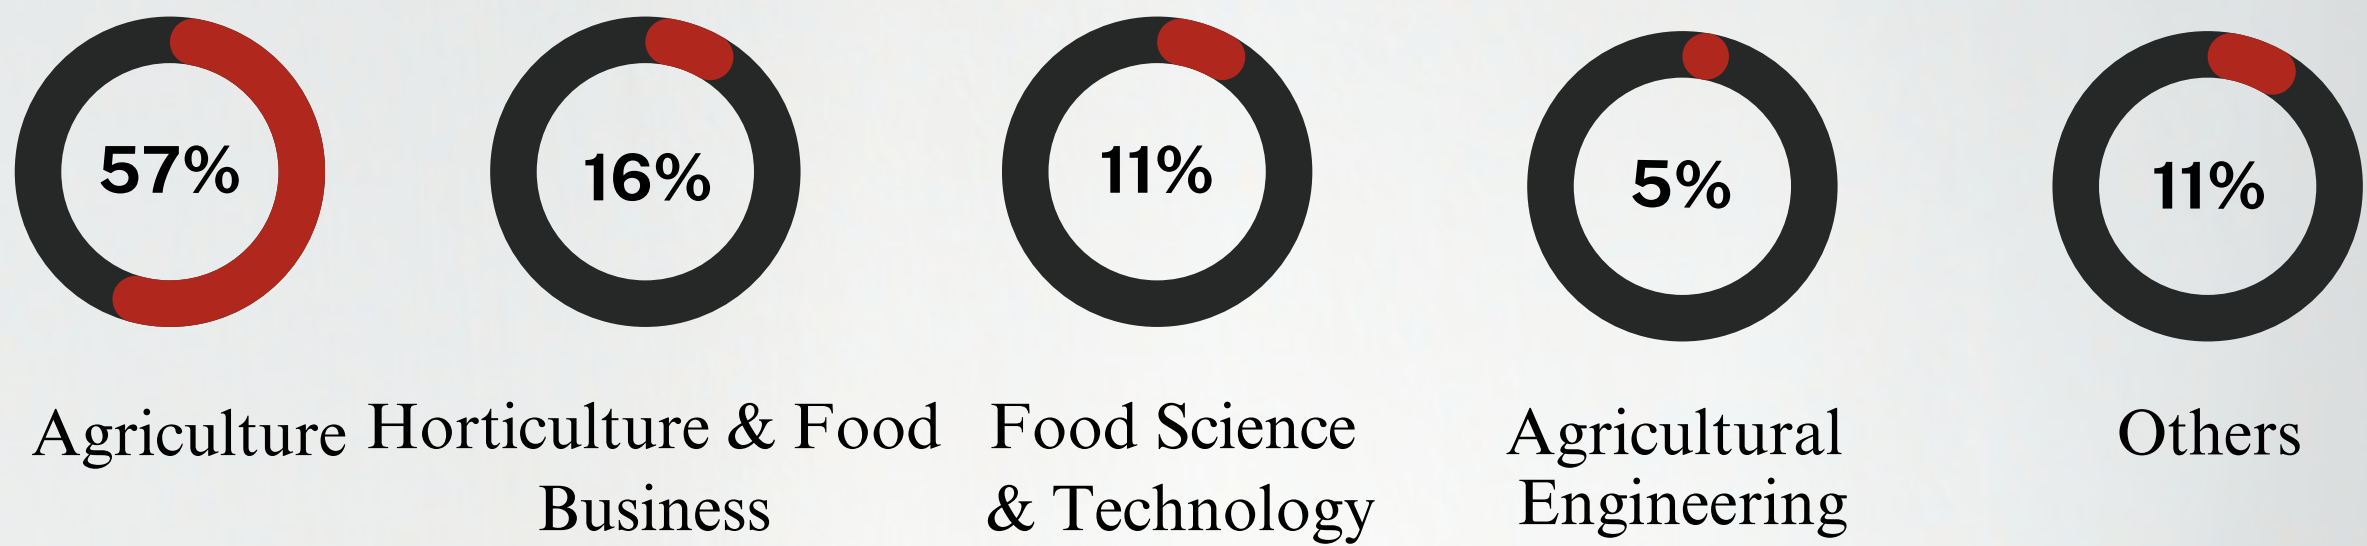

The MBA-Agribusiness program is a response to this growing need for professionals who can contribute to and engineer the agribusiness revolution. SIIB is one of the top institutes that imparts an industry-relevant course in Agri Business Management in India.

The MBA-Agri Business programme focuses on the relevant and applicable fields of Agri Business like Agriculture and WTO, Agri-export-import and Agricultural Finance, Commodity Trading, Rural Marketing, Microfinance, Supply Chain Management, etc. A student pursuing an MBA in Agri Business possesses a high level of decision-making skills and can go out confidently into the demanding and dynamic world of Agri Business Management.

OUR RECRUITERS

MBA Sustainability Management

Energy and Environment are the essential resources that foster economic activities in all countries. These resources have been overexploited and are now depleting. Thus, globally, the need of the hour is to explore options for alternate energy sources with due focus on environmental concerns and indulge in economic activities involving sustainable production. There is a growing need for professionals who can understand these concerns and tailor business strategies to address the global sustainability and climate change issues.

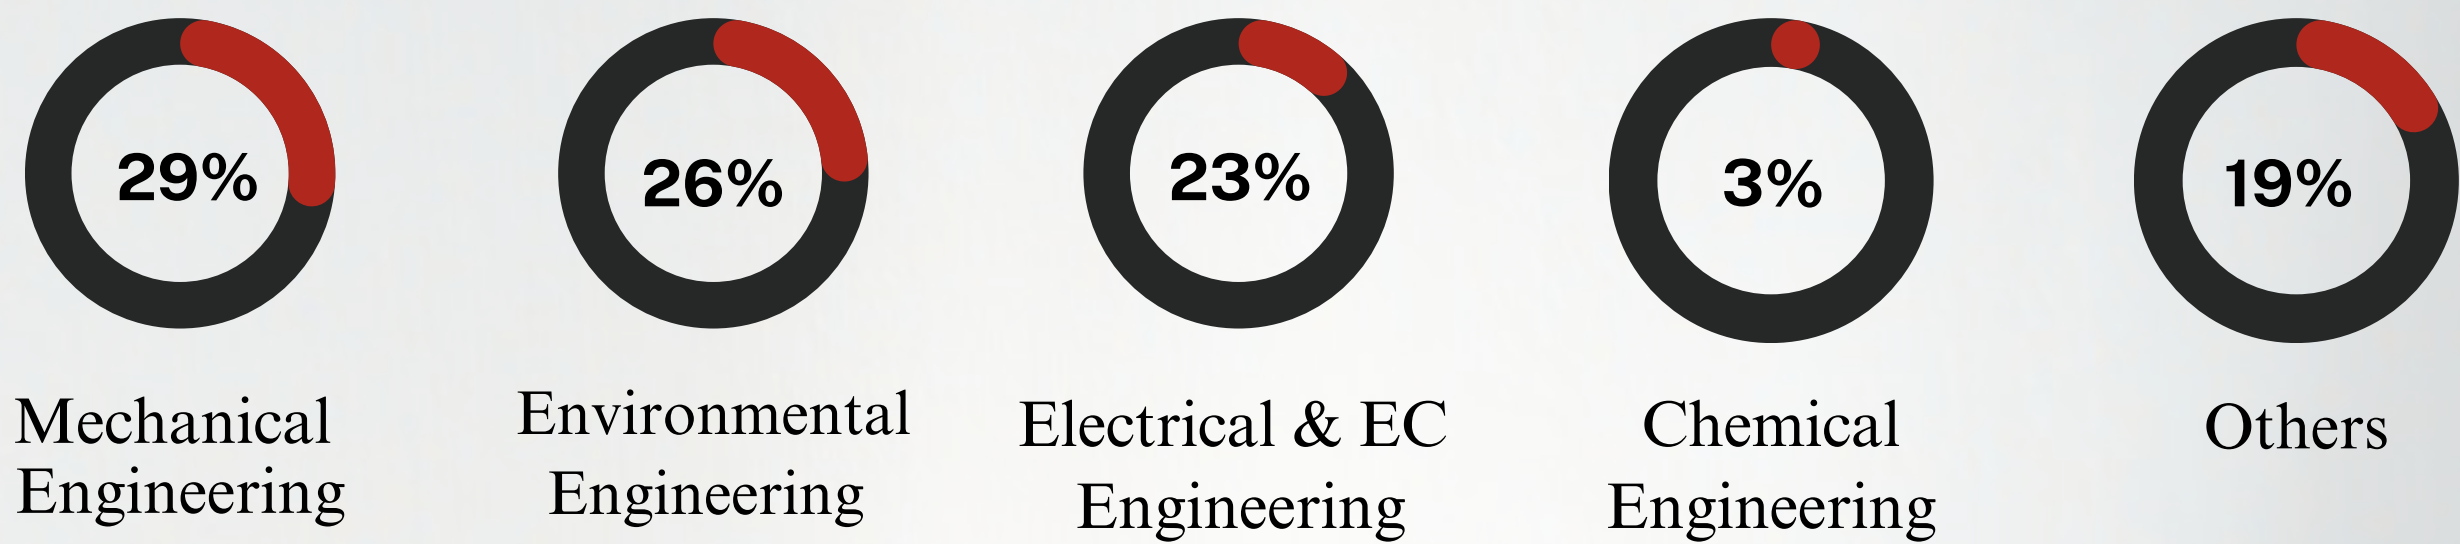

The MBA in Sustainability Management is a niche programme that offers a lot of opportunities in the area of Sustainable development. The primary objective of this programme is to equip aspiring global sustainability managers with managerial, economic, legal and technical competences. The programme has been designed to impart general management knowledge and simultaneously covers important concepts like renewable energy, energy efficiency, climate change and sustainable development, green buildings, corporate sustainability, global standards and environmental management, etc.

A student pursuing an MBA in Sustainability Management can deal effectively with energy audits, and can offer solutions in energy conservation and management, ESG Investing, Sustainable Finance, Natural Capital Management, Sustainability Standards, Life Cycle Assessment (LCA), Renewable Energy Business and Finance, etc.
