Vision

IIHMR is leader in knowledge management to enable the people achieve the best standards of health and lead an economically and socially productive life through improvement in efficiency and effectiveness of health systems, and accessible, affordable and quality health care. It will continue to strive for excellence by providing holistic education, and generating evidence for policy and program strategies for better management.

Mission

IIHMR Delhi is an institution dedicated to the improvement in standards of health through better management of health care and related programs. It seeks to accomplish this through management education, research, innovation, training, consultation and institutional networking in a national and global perspective

The Institute

The International Institute of Health Management Research (IIHMR), New Delhi is allied to the 'Society for Indian Institute of Health Management Research' which was established in October 1984 under the Societies Registration Act-1958. IIHMR-Delhi was setup in 2008 in response to the growing needs of sustainable management and administrative solutions critical to the optimal function of healthcare sector both in India and in the Asia-Pacific region. Over the years, IIHMR-Delhi has emerged as an institute of repute both nationally and globally for producing socially conscious, skilled and vibrant top-class health care management professionals. Our graduates are well-matched for the ever-changing health care sector and evolving social milieu. The institute has progressed as a leader in research, teaching, training, community extension programs and policy advocacy in the field of health care. IIHMR Delhi has carved out a niche for itself through its cutting-edge academic curriculum, infrastructure, accomplished multi-disciplinary faculty and research.

Infrastructure

The aesthetically designed and magnificently built campus of IIHMR is located in Dwarka, New Delhi. The infrastructure as well as the facilities are at par with international standards and meet all academic and administrative requirements. The well-lit spacious air-conditioned classrooms equipped with audio-visual facilities create an atmosphere conducive to learning. The library of the Institute is equipped with the latest books, journals and magazines of national and international standards that are required for academic as well as research activities. The Institute also has a spacious and well- equipped cafeteria and a guest house for visiting guests and dignitaries. The library has a rich collection of national and international journals and books related to Hospital Management, Health Management and Health Information Technology Management, Leadership, Management Information Systems, Quality Assurance, Health Economics and Finance, Public Health Management, Population Sciences, Research Methodology, Biostatistics, Sociology etc. The library also includes audio and video cassettes, CD-ROMs, e-databases and more than 240,000 e-Books.

Post Graduate Program

The Institute offers a two year full time AICTE approved Postgraduate Program with Specializations:

- Health Management
- Hospital Management
- Health Information Technology
- Pharmaceutical Management

Program Educational Objective (PEO)

The Post Graduate Program in Hospital and Health Management at IIHMR is designed to provide the graduate students with appropriate knowledge, attitude and skills to enable them to perform as effective leaders and managers in healthcare industry"

Additionally, the program seeks to fulfil the following specific objectives:

- To understand concepts and techniques of management and their application in hospital and healthcare organizations.
- To develop skills in diagnosing and solving management problems in healthcare.
- To apply management skills in planning, operationalizing and managing healthcare organizations.
- To focus on strategic responsibilities for capacity building and human resource development for healthcare delivery.
- To understand and apply the principles of research to identify healthcare problem and provide solutions.
- To explore and implement new technology and innovations in health sector.

Program Outcome

Upon completion of the program the student will be able to "Function effectively as leader and/or manager in a healthcare set up". In order to achieve this, the following program outcomes have been defined:

- **Management Knowledge & Skills:** Develop students with requisite management knowledge and skills in healthcare delivery system
- **Problem Analysis:** Ability to define the problems and provide solutions by designing and implementing strategies and by interpreting and analyzing data for healthcare delivery

- **Conduct investigations of complex problems:** Use scientific approach, knowledge, and methods including design of experiments, analysis, interpretation of data, and synthesis of information to provide valid conclusions
- **Modern tool usage in healthcare:** Understand technologies like computer-controlled processes and management information systems, supply chain management, enterprise resource planning, statistical software designed on healthcare management
- **Healthcare & society:** Apply reasoning informed by the contextual knowledge to assess societal, health, safety, legal, and cultural issues and the consequent responsibilities in community extension relevant to the professional healthcare management practice
- **Environment & sustainability:** Understand the impact of the professional healthcare management solutions in societal and environmental contexts, and demonstrate the knowledge of, and the need for sustainable development
- **Responsible Behaviour & Ethics:** Demonstrate responsible behavior through awareness, sensitivity and professional standards and apply ethical principles and norms for healthcare management in professional settings
- **Leadership & teamwork:** Engage in participatory management to conform to a shared vision and activities for the achievement of organizational and societal goals.
- **Communication:** Develop soft skills and effectively communicate health management activities to professionals and to the society at large, such as being able to comprehend and write effective reports, presentations, documents, and give and receive clear instructions
- **Resource Management:** Exhibit competency in choosing and applying appropriate resource management technique(s) and meeting timelines so as to optimally utilize resources in healthcare systems to attain program outcomes
- **Life-long learning:** Recognize the need for and ability to engage in independent and life-long learning in the context of contemporary changes in the health care systems

Eligibility Requirements

Bachelor's degree in any discipline with a minimum of 50% marks (45% in case of candidates belonging to reserved category) in the qualifying examination in the aggregate.

Should have taken any one of the Management Aptitude tests like CAT/MAT/XAT/ ATMA/GMAT/CMAT/DMAT Any Other National Level Test or the common entrance examinations (if any) conducted by the respective State Government/ Central Government (CUET).

Candidates appearing at the final year examination of the Bachelor's degree or waiting for the results of their final year degree examinations in 2026 may also apply. Selected candidates will be given provisional admission. They will be required to produce evidence of their graduation within two months of admission. The selection will be made strictly on merit basis.

Selection Procedure

The eligible candidates will be invited for Group Discussion and Interview. The final selection of the candidate is based on his/her performance in the qualifying examination with common entrance examinations, group discussion, and interview.

Submission of Application

Candidates aspiring for admission to the programs may Apply Online. An application will be considered only when it is received with all documentary evidence and the application fee.

Program Structure

1 Month	9 Month	2 Month	9 Month	3 Month
Induction Courses (Non Credit)	Core Courses	Summer Training	Specialization Courses	Dissertation

Summer Training

At the end of the first year each student works with an organization on a project for a period of a minimum of eight weeks. The objective is to allow students intense day-to-day interaction with organizations. Summer Training provides exposure to the students in the functioning of an organization in real time. It also helps students to develop managerial skills, competencies and facilitates an informed career choice by the students. At the end of summer training, they will be assessed on the basis of their performance during summer training. Students submit summer training report and present poster before the panel.

Uniform

Students are required to wear prescribed uniform as per the norms of the institute (except the in-service officers).

Zero Tolerance To Ragging

The Institute observes a "Zero tolerance" policy towards ragging and takes a serious view of such offences. It can lead to the expulsion of a student found engaging in harassing or maltreating a fresher. Any student accused of ragging would be given an opportunity to explain his/her conduct and if found guilty, would be summarily expelled from the Institute.

Dissertation and Internship

All students are required to make a dissertation in their area of interest. The dissertation will include a critical review of literature pertaining to the specific area of interest, data collection and analysis of the selected problem, besides other components. The dissertation must be completed in the second year to achieve the award of the programme.
