## NEWLY INTRODUCED COURSES

# MBA - Fintech | MBA - Business Analytics

## MBA - FINTECH

This newly introduced MBA (Fintech) brings together the incisive power of finance and cutting-edge technology to prepare management aspirants for the future of digital financial services. The MBA (Fintech) program explores exciting domains such as blockchain, cryptocurrencies, AI-driven financial systems, cybersecurity, and digital payment innovations. Designed for the next generation of financial leaders, it equips students with the expertise to take on roles in banks, fintech startups, insurance, and corporate technology sectors—where innovation and disruption go hand in hand.

## MBA - BUSINESS ANALYTICS

Another mint new addition to the MBA stable, the MBA (Business Analytics) course opens doors to an AI driven world where data becomes the strongest decision-maker. MBA (Business Analytics) empowers management graduates to uncover insights hidden in massive datasets and transform them into smart business strategies. With hands-on learning in tools like Python, R, Excel, and Tableau, students develop the ability to solve complex problems, predict trends, and support data-driven innovation. This program prepares future leaders who can navigate the digital economy with confidence and analytical precision.
